Article 4 - Lists of Substances under Special Control in Georgia and making amendments in them

1. Substances under special control, on the basis of their high dependence development potential, their spread, duration of effect, social significance, and danger to health of the country's population, shall be included in the following Lists I, II, III and IV of Substances under Special Control in Georgia:

a) List I – Narcotic Drugs Strictly Limited for Circulation – narcotic drugs of the highest medical and social risks, as well as other substances equated to them in terms of medical and social risks, circulation of which is strictly limited within Georgia;

b) List II – Narcotic Drugs Limited for Circulation – narcotic drugs of high medical and social risks permitted for medical purposes within Georgia, their dosage forms, as well as other substances equated to them in terms of medical and social risks, circulation of which is limited within Georgia;

c) List III – Psychotropic Substances – psychotropic substances of moderate medical and social risks permitted for medical purposes within Georgia, their dosage forms, as well as other substances equated to them in terms of medical and social risks;

d) List IV – Precursors – substances (precursors) often used for illegal manufacturing of narcotic drugs and psychotropic substances.

2. Lists of Substances under Special Control in Georgia shall be given in Annex No 1 to this Law, and shall constitute its integral part.

3. Substances under special control shall be included in the Lists by their international unregistered (generic) names, and/or their chemical names and/or unregistered trivial names. The Lists shall automatically include the dosage forms of substances entered into the Lists, as well as the dosage forms of their salts, ethers, bases and isomers, if any, by any trade names, except as provided for by this Law.

4. Considering the local drug addiction, epidemiological, and criminal situation, when appropriately substantiated, it shall be permissible to make amendments in the Lists, particularly, to move a substance under special control from one List to another, or remove a substance from any List, or add a new substance under special control to any List.

5. Making amendments in the Lists shall be based on:

a) official notification of the UN Secretary-General

b) statistically evidenced information held by medical institutions, forensic/criminalistic, judicial/investigative and/or law enforcement bodies on allegations of consumption of a specific substance under special control that can pose social danger.

6. The Parliament of Georgia shall make amendments in the Lists of Substances under Special Control in Georgia, based on a respective recommendation of the Government of Georgia.

7. Plants, substances under special control, or pharmaceutical products under special control shall be assigned to the Lists based solely on the Lists, and/or on explanatory notes by a competent body.

Article 5 - Control Regime for substances under special control

1. Substances under special control included in List I shall be subject to stricter control than substances under special control included in List II.
2. Substances under special control included in List II shall be subject to stricter control than substances under special control included in List III.
3. Precursors included in Table No 1 of List IV shall be subject to stricter control than precursors included in Table No 2 of List IV.
4. The Ministry for Labour, Health, and Social Affairs of Georgia shall determine the list of, and legal circulation procedures for therapeutic agents equated to pharmaceutical products under special control. Control regime and legal circulation procedures established for substances under special control included in the Lists shall apply to therapeutic agents on this list, including preparations.
5. It shall be prohibited to move a substance under international control to a List under less strict control than it is provided for by international requirements.

Law of Georgia No 2043 of 5 March 2014 – website, 12.3.2014

Article 6 - Small, large, and particularly large amounts of substances under special control and preparations containing them seized from illegal possession or circulation

1. Small, large, and particularly large amounts of substances under special control included in Lists I, II, and III seized from illegal possession or circulation shall be determined by Annex No 2 to this Law and shall be its integral part.
2. Amount of a dosage form (tablet, capsule, ampoule, etc.) of a substance under special control included in Lists I and II shall be determined in grams, calculated on the basis of pure substance, without fillers (sugar, water, starch, etc.); and in the case of a preparation or a mixture – without a substance that is not under special control.
3. If a preparation or a mixture seized from illegal circulation contains two or several substances under special control, the amount shall be calculated on the basis of a substance illegal circulation of which (in a determined amount) is punishable with a stricter penalty.
4. No amount shall be determined for dosage forms of substances included in Lists III and IV (except as provided for by this Law), nor for preparations not included in the Lists.
5. The Parliament of Georgia shall make amendments in the small, large, and particularly large amounts of substances under special control that are seized from illegal possession or circulation, based on a respective recommendation of the Government of Georgia.

Chapter II

Powers of the State in Circulation of Substances under Special Control in Georgia, and the National Coordination of Activities against Illegal Circulation of the Substances

Article 7 - National regulation of circulation of substances under special control in Georgia

Only duly authorised state bodies shall regulate circulation of substances under special control in Georgia.

Article 8 - Powers of the State with respect to legal circulation of substances under special control in Georgia

1. Appropriate executive authorities of Georgia, through duly authorised agencies, shall control and supervise the legal circulation of substances under special control.
2. The Ministry for Labour, Health, and Social Affairs of Georgia shall ensure production of a required quantity of prescription forms for pharmaceutical products included in List II.
3. Only duly authorised state bodies shall control legal circulation of pharmaceutical products and quality of narcological assistance in Georgia, within the scope of their powers.
4. The State shall ensure availability of narcotic drugs and psychotropic substances in required amount and form for medical and scientific purposes, as well as for other purposes permitted by the legislation of Georgia, under international standards.

Article 9 - Quotas for narcotic drugs, psychotropic substances, and precursors

1. The Competent Body shall establish state quotas (if necessary, it shall make amendments in the quotas) on narcotic drugs, psychotropic substances,

and precursors included in Table No 1 of List IV under international control, based on Georgia's annual consumption demand. The Competent Body shall submit the quotas to the UN International Narcotics Control Board for approval under international requirements.

2. The Minister for Internal Affairs and the Minister for Labour, Health and Social Affairs of Georgia may jointly establish quotas of certain substances under special control, based on Georgia's annual consumption demand. The established quotas shall be submitted to the UN International Narcotics Control Board for approval under international requirements.

3. Ministers for Internal Affairs, and Labour, Health and Social Affairs of Georgia may jointly establish domestic quotas of certain substances under special control that are not subject to international control, and of certain therapeutic agents equated to pharmaceutical products under special control, based on Georgia's annual consumption demand.

4. The Ministry for Labour, Health and Social Affairs of Georgia shall, no later than five working days of approval of the third paragraph of this article, announce publicly and publish the approved domestic quotas; and no later than 30 calendar days, the Ministry shall start accepting import applications.

5. The Ministry for Labour, Health and Social Affairs of Georgia shall be obliged, when granting preliminary agreement and permission after approval of domestic quotas under the fourth paragraph of this article, not to allow monopolisation of pharmaceutical product import.

Law of Georgia No2043 of 5 March 2014 – website, 12.3.2014

Article 10 - Packaging/labelling of pharmaceutical products under special control

1. Packaging/labelling requirements for pharmaceutical products under special control shall be determined under this Law and the Law of Georgia on Medicines and Pharmaceutical Activity.

2. Packages of pharmaceutical products under special control produced in Georgia, or brought into Georgia must rule out the possibility of contact with medicines and/or pharmaceutical substances without breaking its integrity.

Article 11 - Promotion and advertisement of substances under special control in Georgia

1. It shall be prohibited to promote and advertise, in any form, substances included in the Lists of substances under special control in Georgia – dissemination of information on creation, consumption, use, purchasing places of narcotic drugs and psychotropic substances; use of books, brochures, and the media, including the Internet, for advertising means, except for specialised professional literature.

2. Advertisement of substances under special control shall include materials and/or acts spread through the media, as well as by any other means and in any other form, with the purpose to promote the use of substances.

3. It shall be prohibited to:

a) advertise substances under special control;

b) distribute substances under special control among population for advertisement purpose.

Article 12 - Reporting on activities related to legal circulation of substances under special control in Georgia

1. All state bodies and persons that carry out activities related to legal circulation of substances under special control within Georgia shall be obliged to report to the competent body as determined by the Ministry for Labour, Health, and Social Affairs of Georgia.

2. Failure to fulfil the requirement under the first paragraph of this article shall entail liability as determined by the Code of Administrative Offences of Georgia.

Article 13 - Registration of operations related to legal circulation of pharmaceutical products under special control in Georgia

Operations related to legal circulation of pharmaceutical products under special control in Georgia shall be registered under the legislation of Georgia.

Article 14 - The Interagency Coordination Council on Combatting Drug Addiction

1. To reduce the spread of drug addiction, and the medical, social, and economic harm caused by consumption of narcotic drugs, and to ensure efficient and coordinated interagency cooperation against illegal circulation of narcotic drugs in the country, the Interagency Coordination Council on Combatting Drug Addiction ('the Council') shall be established.

2. Legal and organisational form, composition, and rules of procedure of the Council shall be determined by the statute of the Council. The Government of Georgia shall approve the statute of the Council.

3. The Council may request from appropriate institutions the documents that are necessary for its operation, within its powers.

4. The Constitution of Georgia, international agreements and treaties of Georgia, and laws and other normative acts of Georgia shall govern activities of the Council.

5. To collect and assess information on illegal consumption of substances under special control in the country, as well as to introduce evidence-based scientific and practical methodologies, the Council shall ensure creation of monitoring system over illegal consumption and illegal circulation of substances under special control, and shall facilitate its operation.

6. The monitoring system shall ensure:

- a) definition of epidemiological and statistical indicators for illegal consumption of substances under special control; assessment of the medical and social harm caused by illegal consumption and drug addiction; planning of measures to be taken; as well as assessment of the efficiency of the measures taken;
- b) exchange of information with, and report to appropriate organisations at international level;
- c) participation in the Early Warning System.

7. The Council shall determine procedure for the monitoring system operation and the institution to conduct monitoring.

- f) sow, grow, and cultivate plants and fungus mycelium containing a substance under special control.

Article 16 - Use of pharmaceutical products under special control for urgent medical aid

1. The Ministry for Labour, Health, and Social Affairs of Georgia shall prepare the list and amounts of pharmaceutical products under special control that are permitted to provide urgent medical aid in air, marine, and railway transport registered within Georgia, including during international trips.

2. During international trips on any transport, and during international events (cycling, motor rally, etc.), including joint military exercises with foreign country representatives, it shall be permitted to bring into and take out of Georgia pharmaceutical products under special control (if the event to be held provides for it) included in Lists II and III to provide urgent medical aid to passengers, and participants of the events, respectively. This process shall not be regarded as import, export, or transit.

3. Before the start of an international event under the second paragraph of this article, the organisation (agency) concerned shall submit a written application to the Ministry for Labour, Health, and Social Affairs of Georgia, based on which the Ministry shall send a letter to the Legal Entity under Public Law (LEPL) within the Ministry of Finance of Georgia – the Revenue Service ('LEPL Revenue Service'). This letter shall be the basis for passing, or for refusal to pass through customs the pharmaceutical products under special control.

Article 17 - Use of substances under special control in training, scientific research, expert examination, and criminalistical activities

State institutions, and legal persons authorised by the competent bodies shall be permitted to use substances under special control for training, scientific research, expert examination and criminalistical purposes.

Article 18 - Procedures for legal circulation of substances under special control in Georgia for veterinary activities

The Minister for Agriculture of Georgia, in agreement with the Ministry for Labour, Health, and Social Affairs of Georgia shall approve the procedure for legal circulation of substances under special control in Georgia that are required for veterinary offices and animal-catching activities.

Article 19 - Bringing into and taking out of Georgia pharmaceutical products under special control for personal needs of natural persons

1. Natural persons (including natural persons in transit through the territory of Georgia) shall have the right to carry around narcotic drugs and psychotropic substances for treatment, together with proper medical documents, and documentation related to the movement of goods across the customs border of Georgia.

2. If natural persons are unable to leave the territory of Georgia but they need pharmaceutical products under special control to continue treatment, the patients shall be provided with corresponding medicine under the procedure approved by the Minister for Labour, Health, and Social Affairs of Georgia.

3. Bringing into Georgia, taking out of Georgia, or transfer of pharmaceutical products under special control to the territory of another state through the territory of Georgia by natural persons (including natural persons in transit through the territory of Georgia) for their personal needs shall not be regarded as import, export, or transit of pharmaceutical products under special control.

4. The Ministry for Labour, Health, and Social Affairs of Georgia, in agreement with the LEPL Revenue Service shall approve the procedure for bringing pharmaceutical products under special control into Georgia, and for taking them out of Georgia.

Chapter IV

Carrying out of Individual Types of Activities Related to Circulation of Substances under Special Control

Article 20 - Permit-related activity connected with legal circulation of pharmaceutical products under special control, and basic requirements related to issuing of permits

1. Permit-related activity connected with legal circulation of pharmaceutical products under special control shall be regulated under the Law of Georgia on Licenses and Permits, and the subordinate normative acts issued under it.

2. Use of a pharmaceutical product under special control as part of a medical service provided by a medical facility shall not require permission.

Article 21 - Production of pharmaceutical products under special control

Legal persons holding appropriate permits may only produce pharmaceutical products under special control included in Lists III and IV.

Article 22 - Preparation of pharmaceutical products under special control in pharmacies

1. Pharmacies holding appropriate permits may prepare pharmaceutical products under special control as per magistral prescriptions.

2. Pharmacies shall be prohibited from preparing pharmaceutical products under special control as per officinal prescriptions.

3. Pharmacies holding appropriate permits may prepare preparations that are not included in the Lists but contain a psychotropic substance included in List III as per officinal prescriptions.

Article 23 - Manufacturing/processing of substances under special control

Duly authorised training, scientific research, and criminalistical institutions are the only facilities that have the right to manufacture/process substances under special control.

Article 24 - Storage of substances under special control in Georgia

1. Persons that carry out respective activities may store substances under special control as determined by the legislation of Georgia; also natural persons, if pharmaceutical products under special control have been purchased as prescribed by the doctor.
2. Storage of narcotic drugs at the customs warehouse using a warehouse goods transaction shall be prohibited in Georgia.

Article 25 - Purchase of pharmaceutical products under special control

The following persons may purchase pharmaceutical products under special control:

- a) natural persons (only on the basis of appropriate prescriptions);
- b) persons with appropriate right from persons having appropriate right (on the basis of documentation under the legislation of Georgia), to carry out activities permitted by the legislation of Georgia.

Article 26 - Transfer of substances under special control

Transfer of substances under special control included in Lists I and II within Georgia shall be prohibited.

Article 27 - Transportation (carriage) of substances under special control

Article 29 - Wholesale sale of pharmaceutical substances under special control

Legal persons holding appropriate permits are the only persons that have the right to sell pharmaceutical substances under special control at wholesale to legal persons that have appropriate right, on the basis of documentation as determined by the legislation.

Article 30 - Import (export) of pharmaceutical products under special control

1. Legal persons holding appropriate permits and engaged in respective activity are the only persons that have the right to import (export) pharmaceutical products under special control.
2. Legal persons that bring in (take out) narcotic drugs shall be obliged to obtain preliminary agreements and permits to be issued by the Ministry for Labour, Health, and Social Affairs of Georgia before bringing in (taking out) narcotic drugs.
3. Before importing or exporting psychotropic substances, and precursors included in Table No 1 of List IV, legal persons shall be obliged to obtain preliminary agreements and permits to be issued by the Ministry for Labour, Health, and Social Affairs of Georgia.
4. In an attempt to bring narcotic drugs into Georgia, or to import psychotropic substances without a preliminary permit, an appropriate agency of the Ministry for Finance of Georgia shall ensure that the shipment is returned back at supplier's expense.
5. Before the permit is issued, the import (export) of pharmaceutical products under special control shall be agreed upon in advance with an authorised body of an exporting (importing) country, and the competent body shall issue a preliminary agreement document for this purpose.

6. Import (export) of all substances under special control, as well as export of preparations produced in Georgia, shall require preliminary agreement, regardless of whether they are included in the Lists or not.
7. A preliminary agreement document shall also be issued when this is required by a manufacturer and/or by an exporting (importing) country, regardless of whether a pharmaceutical product under special control is subject to special control in Georgia or not.
8. A preliminary agreement document shall include:
 - a) the name of an importing (exporting) organisation, its legal and actual addresses
 - b) the international unregistered (generic) names and trade names of substances under special control (if any)
 - c) the amount of import (export) (and if substances under special control are being imported or exported, their dosage form, dose unit, and their quantity)
 - d) the type of transport to bring in the shipment to Georgia (take the shipment out of Georgia)
 - e) purpose of import (export)
 - f) date of issue and term of validity of the document.
9. When exporting, a preliminary agreement document must additionally include the number of a preliminary import agreement document issued by an appropriate national competent body of an importing country, and the date of its issuance.
10. Within the scope of this procedure, it shall be permitted to export pharmaceutical products under special control, registration period of which has expired in Georgia.
11. Legal persons authorised to carry out training, scientific research, expert examination, and criminalistical activities may import substances under special control, consequently, only for training, scientific research, expert examination, and criminalistical purposes. In this case, the substances shall be imported only on the basis of a preliminary agreement document, and issuance of further permission documents shall not be required.
12. Preparations produced in Georgia that are not included in the Lists shall be exported on the basis of a preliminary agreement document, and issuance of further permits shall not be required.
13. After the import (export) is completed, a respective tax authority shall submit details of the import (export) of substances under special control to the competent body, as determined by the legislation of Georgia; the details shall include the names and amount of actually imported (exported) substances, and the date of import (export).
14. If the competent body receives an application from an appropriate body of an exporting country, the competent body shall submit the names and amount of actually imported substances to the appropriate body, under the requirements of international norms.
15. Narcotic drugs brought into Georgia, and narcotic drugs intended to be taken out of Georgia, as well as psychotropic substances to be imported or exported, that are not accompanied with preliminary agreement documents issued by the appropriate bodies, shall be detained by the tax authorities.
16. After the export of pharmaceutical products under special control is completed, the competent body shall request the names, amount, and date of import of actually imported pharmaceutical products from an authorised body of an importing country, under the requirements of international norms.
17. If a discrepancy between the actual amount of pharmaceutical products under special control and the amount indicated in the permit is identified during an import (export) operation, a tax authority shall detain the goods, and shall notify the competent body about it; then, appropriate agencies of the Ministry for Labour, Health, and Social Affairs of Georgia and the Ministry of Finance of Georgia shall study the reasons of the discrepancy within their powers, and shall act under the legislation of Georgia.
18. Import and export procedure for narcotic drugs and psychotropic substances shall be approved by a joint order of the Minister for Finance of Georgia and the Minister for Labour, Health, and Social Affairs of Georgia.
19. Import and export procedure for precursors included in List IV shall be approved by the Government of Georgia.
20. LEPL Revenue Service shall compile a list of customs check points within Georgia that have permission to let substances under special control through into, and out of Georgia under the legislation of Georgia.
21. By parcel post, it shall be permitted to:
 - a) bring substances under special control for expert examination into Georgia, and to take them out of Georgia;
 - b) import and export the registration samples, reference standards, and standard samples under the Law of Georgia on Medicines and Pharmaceutical Activity.
22. During natural disasters, or other emergency situations in Georgia, pharmaceutical substances under special control shall be brought into (taken out of) Georgia without preliminary agreement. Control conditions under the legislation of Georgia shall apply to legal circulation of therapeutic agents under special control that were imported during this period.
23. Circulation of substances under special control within free ports and zones (free industrial zones) shall be supervised and controlled the same way as within other parts of Georgia; however, stricter measures may also be applied.

Article 31 - Purchase, storage, registration, and handing out of special blanks of prescription for pharmaceutical products under special control, and writing of a prescription

1. Prescriptions for pharmaceutical products under special control may be written on a special prescription blank in a physical or electronic form to be approved by the Ministry for Labour, Health, and Social Affairs of Georgia.
2. The Ministry for Labour, Health, and Social Affairs of Georgia shall approve the procedures for the purchase, storage, registration, and writing of a special prescription blank.
3. The Ministry for Labour, Health, and Social Affairs of Georgia shall approve the list of pharmaceutical products to be written on a special prescription blank (including pharmaceutical products under special control not included in the Lists).
4. Doctors holding the appropriate certificates may write pharmaceutical products under special control that are registered in Georgia and included in the Lists on a special prescription form.
5. Pharmaceutical products under special control that are unregistered in Georgia shall be prescribed to natural persons for individual needs as determined by the legislation of Georgia.

Article 32 - Destruction of substances under special control

1. The following shall be subject to destruction:
 - a) substances under special control included in the Lists, and plants containing narcotic drugs and psychotropic substances that are seized by law enforcement authorities from illegal circulation or possession;
 - b) pharmaceutical products under special control that were given to patients for treatment, and those returned;
 - c) waste of substances under special control that were used for medical, expert examination, training, and veterinary purposes;
 - d) substances under special control that have expired and/or have become unusable under any type of exposure;
 - e) substances under special control – in other cases determined by the legislation of Georgia..
2. Duly authorised legal person or state body shall destroy substances under special control in Georgia.

Chapter V

Restrictions for Drug-addicted Persons

Article 33 - Restrictions imposed on professions and activities

1. To ensure the state and public security, and to protect natural persons' health, moral values, human rights, and other legal interests, the persons dependent on substances under special control included in Lists I, II and III, and illegal consumers of substances under special control included in Lists I and II shall be restricted from being engaged in certain professions and activities in Georgia.
2. The Government of Georgia shall approve the list of professions and activities under the first paragraph of this article, and shall determine the frequency of drug tests to be performed.
3. Persons engaged in the activities and professions under the first paragraph of this article shall be obliged to undergo periodic tests for consumption of substances under special control included in Lists I, II, and III. Alleged illegal consumption of substances under special control included in Lists I and II shall be the grounds for dismissing workers engaged in the above professions, except when persons consume pharmaceutical products under special control for treatment purposes as prescribed by a doctor with the appropriate right, and when there is a medical document evidencing the consumption.

Chapter VI

Narcological Assistance

Article 34 - General principles of narcological assistance

1. Medical and rehabilitation programmes for drug-addicted persons, and for consumers of substances under special control included in Lists I, II, and III shall be funded from the state budget of Georgia, and/or from the revenue of a legal entity under public law within the Ministry for Labour, Health, and Social Affairs of Georgia that is permitted for funding under the legislation of Georgia.
2. Narcological assistance shall be rendered to drug-addicted persons, and to consumers of substances under special control included in Lists I, II, and III at a respective narcological service providing facility openly, confidentially, or anonymously, and voluntarily. Narcological assistance shall be rendered

to an underage patient as determined by the legislation of Georgia.

3. It shall be prohibited to treat drug-addicted persons, and consumers of substances under special control included in Lists I, II, and III with narcotic drugs, except when there are life-saving indications, or during the substance dependence removal period in the inpatient setting based on a respective standard, guideline, or protocol, as well as during drug replacement special programme.

4. The Ministry for Labour, Health, and Social Affairs of Georgia shall determine the methodology for treatment with drug replacement special programme.

5. Types of compulsory medical assistance to drug-addicted persons shall be:

a) removal of substance dependence during the period of temporary restriction of liberty, or imprisonment;

b) treatment during imprisonment and at institutions of confinement.

6. The Ministry for Labour, Health, and Social Affairs of Georgia shall determine the procedures for medical investigation, check-up, expert examination, diagnostics, treatment, rehabilitation, and oversight of drug-addicted persons and consumers of substances under special control included in Lists I, II, and III.

Article 35 - Narcological service providing institutions

Narcological service providing institutions shall render narcological and medical/psychological assistance to consumers of substances under special control included in Lists I, II, and III and drug-addicted persons. Narcological service providing institutions shall be medical facilities providing assistance in an inpatient and/or outpatient setting under the requirements of the legislation of Georgia.

Article 36 - Identification and registration of drug-addicted persons and establishment of facts of taking substances under special control included in Lists I, II, and III

1. A fact of taking substances under special control included in Lists I, II, and III shall be established on the basis of a clinical and/or laboratory examination.

2. A joint order by the Minister for Internal Affairs of Georgia and the Minister for Labour, Health, and Social Affairs of Georgia shall determine the procedure for establishing facts of consumption of substances under special control included in Lists I, II and III as administrative offences.

3. An institution authorised by the Ministry of Labour, Health, and Social Affairs of Georgia shall create the Unified Information Bank on drug-addicted persons and consumers of substances under special control in Georgia.

4. The Ministry of Labour, Health, and Social Affairs of Georgia shall determine the procedure for operation of the Unified Information Bank, and shall compile a list of the state bodies and legal persons that must have access to the information in the Unified Information Bank.

5. The Unified Information Bank on drug-addicted persons and consumers of substances under special control in Georgia shall contain information on drug-addicted persons and consumers of substances under special control included in Lists I, II, and III in Georgia. The information in the Bank shall be confidential.

6. All state bodies, legal persons, and individual entrepreneurs that provide medical examination, diagnostics, check-up, and rehabilitation to consumers of narcotic drugs and psychotropic substances, and drug-addicted persons within Georgia shall be obliged to keep record of such persons under the established procedure, and to communicate the information to the Unified Information Bank within the established terms.

7. When providing assistance and/or treatment anonymously, a narcological service providing institution may forward information to the Unified Information Bank without a patient's personal data. Such data shall be a medical secrecy that can be disclosed only with consent of the patient, or as determined by the legislation of Georgia.

8. Narcological service providers or appropriately authorised institutions shall diagnose drug-addicted persons on the basis of a decision by the commission involving at least three narcologists. As a result, registration cards established by the Ministry for Labour, Health, and Social Affairs of Georgia shall be compiled on drug-addicted persons in two copies. One copy shall be forwarded to the Unified Information Bank, and the other copy shall remain with the institution.

Article 37 - Treatment of drug-addicted persons

1. Drug-addicted persons shall be treated at narcological service providing institutions under the established standard, or the National Recommendations on Clinical Practice (Guidelines) and the State Standard for Clinical Conditions Management (Protocol) approved or recognised by the Ministry for Labour, Health, and Social Affairs of Georgia.

2. If drug-addicted persons are treated voluntarily at their own expense, they may remain anonymous under the established procedure. Information on treatments funded from the state budget of Georgia shall be confidential.

3. If drug-addicted persons are treated anonymously, they shall be obliged to present their identification document to medical facilities under the established procedure. Based on this document, drug-addicted persons shall be assigned special codes that may be decoded with their consent, or under court decision, as determined by the legislation of Georgia.

4. The Ministry for Labour, Health, and Social Affairs of Georgia shall establish procedures for presenting identification documents by the patients, for

Chapter VII

Transitional Provisions

Article 38 - Measures to be taken with regard to enactment of the Law

1. After this Law is enacted, legal acts adopted before the enactment shall retain legal force unless they contradict this Law.
2. The Ministry for Labour, Health, and Social Affairs of Georgia shall, within eight months after this Law is enacted, and in agreement with appropriate bodies of the executive authority of Georgia, approve respective legal acts required for this Law to come into force.
3. The Ministry for Agriculture of Georgia shall, in agreement with the Ministry for Labour, Health, and Social Affairs of Georgia, develop and approve:
 - a) the procedure for using substances under special control in Georgia necessary for veterinary services and animal-catching activities;
 - b) the procedure for sowing, growing, and cultivating plants and fungus mycelium containing narcotic drugs, psychotropic substances, and precursors for scientific research purposes.
4. Within six months after this Law is enacted, the Ministry for Labour, Health, and Social Affairs of Georgia together with the Ministry for Justice of Georgia shall compile and submit for approval to the Government of Georgia the list of certain professions and activities for which drug tests are required, and the procedure for periodic drug tests for consumption of substances included in Lists I and II of substances under special control based on random selection principle.
5. Within three months after this Law is enacted, the Interagency Coordination Council on Combatting Drug-addiction shall develop procedure for the monitoring system operation.

Article 39 - Normative acts to be repealed in connection with enactment of the Law

After this Law is enacted, the following shall be declared void:

- a) Law of Georgia on Narcotic Drugs, Psychotropic Substances, and Precursors and Narcological Assistance of 5 December 2002 (Legislative Herald of Georgia, No 33, 23.12.2002, Article 162);
- b) Resolution No 2557-ES of the Parliament of Georgia on Approval of the List of Small, Large, and Particularly Large Amounts of Narcotic Drugs and Psychotropic Substances Seized from Illegal Possession or Circulation of 23 July 2003 (Legislative Herald of Georgia, No 82, 6.8.2003, Article 727).

Chapter VIII

Final Provision

Article 40 - Enactment of the Law

This Law shall be enacted as from the 30th day of its promulgation.

Notes:

1. List I shall also include:

- isomers of substances included in the List, if such isomers may exist within a specific chemical designation, except when an isomer of any substance has been intentionally removed from the List;
- simple and compound ethers of substances included in the List, if such ethers may exist;
- salts of isomers, and salts of simple and compound ethers of substances included in the List, if such salts may exist;
- dosage forms of substances included in the List, if such dosage forms may exist;
- standard samples of substances included in the List;
- mixtures.

2. List I shall not include isomers of levomethorphan and levorphanol, and accordingly, dextromethorphan [(+)-3-methyl-N-methylmorphinan] and dextrorphan [(+)-3-hydroxy-N-methylmorphinan] which have been intentionally removed from the List.

26	დროტებანოლი DROTEBANOL	3,4-dimethoxy-17-methylmorphinan-6β,14-diol
27	ეთილმორფინი ETHYLMORPHINE	3-ethylmorphine (derivative of morphine) (მორფინის წარმოებული)
28	ეტოქსერიდინი ETOXERIDINE	1-[2-(2-hydroxyethoxy)-ethyl]-4-phenylpiperidine-4-carboxylic acid ethyl ester
29	ზიპეპროლი ZIPEPROL	α-(α-methoxybenzyl)-4-(β-methoxyphenethyl)-1-piperazineethanol
30	თებაინი THEBAINE	(an opium alkaloid; also contained in plant Papaver bracteatum) (ოპიუმის ალკალოიდი; მას აგრეთვე შეიცავს მცენარე Papaver bracteatum)
31	თებაკონი THEBACON	Acetyldihydrocodeinone (acetylated enol form of Hydrocodone)
32	კათინი CATHINE (+)-norpseudoephedrine	(+)-(S)-α-[(S)-1-aminoethyl]benzyl alcohol
33	კლონიტაზენი CLONITAZENE	2-(p-chlorobenzyl)-1-diethylaminoethyl-5-nitrobenzimidazole
34	კოდეინი CODEINE	3-methylmorphine (derivate of morphine, alkaloid contained in opium and poppy straw) (მორფინის წარმოებული; ალკალოიდი, რომელსაც შეიცავს ოპიუმი და ყაყაჩოს ნაძგა)
35	კოკაინი COCAINE	methyl ester of benzoylecgonine (an alkaloid contained in coca leaves or obtained from ecgonine by way of synthesis) (ალკალოიდი, რომელსაც შეიცავს კოკას ფოთლები ან რომელიც მიიღება სინთეზური გზით ეკგონინიდან)
36	ლევამფეტამინი LEVAMFETAMINE (levamphetamine)	(-)-(R)-α-methylphenethylamine(amphetamine(-)isomer
37	ლევომეტამფეტამინი LEVOMETHAMPHETAMINE	(-)-N,α-dimethylphenethylamine

38	ლევორფანოლი LEVORPHANOL	(-)-3-hydroxy-N-methylmorphinan
39	მეთაქვალონი METHAQUALONE	2-methyl-3-o-tolyl-4(3H)-quinazolinone
40	მეთადონი METHADONE	6-dimethylamino-4,4-diphenyl-3-heptanone
41	მეთილფენიდატი METHYLPHENIDATE	methyl α -phenyl-2-piperidine acetate
42	მეტამფეტამინი METAMFETAMINE (methamphetamine)	(+)-(S)-N, α -dimethylphenethylamine
43	მეტამფეტამინის რაცემატი METAMFETAMINE RACEMATE (methamphetamine racemate)	(\pm)-N, α -dimethylphenethylamine
44	მეკლოქვალონი MECLOQUALONE	3-(o-chlorophenyl)-2-methyl-4(3H)-quinazolinone
45	მორფინი MORPHINE	the principal alkaloid of opium or of opium (soporific) poppy (ოპიუმის ან ოპიუმის (დამამძინებელი) ყაყაჩოს ძირითადი ალკალოიდი)
46	ნალბუფინი NALBUPHINE	(-)-17-(cyclobutylmethyl)- 4,5 α -epoxymorphinan- 3,6 α ,14-triol hydrochloride
47	ნიკოდიკოდინი NICODICODINE	6-nicotinyldihydrocodeine (derivative of morphine) (მორფინის წარმოებული)
48	ნიკოკოდინი NICOCODINE	6-nicotinylcodeine (derivative of morphine) (მორფინის წარმოებული)
49	ნიკომორფინი NICOMORPHINE	3,6-dinicotinylmorphine (derivative of morphine) (მორფინის წარმოებული)
50	ნორკოდეინი NORCODEINE	N-demethylcodeine (derivative of morphine) (მორფინის წარმოებული)

51	ნორმეთადონი NORMETHADONE	6-dimethylamino-4,4-diphenyl-3-hexanone
52	ნორპიპანონი NORPIPANONE	4,4-diphenyl-6-piperidino-3-hexanone
53	ორიპავინი ORIPAVINE	3-O-demethylthebaine
54	ოპიუმი სამედიცინო OPII MEDICINALIS	
55	ოქსიკოდონი OXYCODONE	14-hydroxydihydrocodeinone (derivative of morphine) (მორფინის წარმოებული)
56	პანტოპონი PANTOPON	
57	პაპავერიტუმი (ომნოპონი) PAPAVERITUM (OMNOPON)	
58	პეტიდინი PETHIDINE	1-methyl-4-phenylpiperidine-4-carboxylic acid ethyl ester

Notes: List II shall include:

a) isomers of substances included in the List, if such isomers may exist within a specific chemical designation, except when an isomer of any substance has been intentionally removed from this List;

b) simple and compound ethers of substances included in the List, if such ethers may exist;

c) salts of isomers, and salts of simple and compound ethers of substances included in the List, if such salts may exist;

d) dosage forms of substances included in the List, and dosage forms of their salts, by any trade names (registered, or unregistered in Georgia), if such dosage forms may exist;

e) preparations of the following narcotic drugs:

e.a) all combined preparations containing acetyldihydrocodeine, dihydrocodeine, codeine, nicodicodine, nicocodine, norcodeine, pholcodine, and ethylmorphine;

Law of Georgia No 2043 of 5 March 2014 – website, 12.3.2014

e.b) propiram-containing combined preparations that contain 100 mg or more propiram per dose unit, where propiram is compounded with at least the same amount of *methylcellulose*;

e.c) dextropropoxyphene-containing combined peroral preparations that contain 135 mg or more dextropropoxyphene per dose unit, or when its concentration in integral preparations equals to or exceeds 2.5 percent, provided that the preparations must not contain any of the substances under the UN Convention on Psychotropic Substances of 1971;

e.d) cocaine-containing combined preparations that contain more than 0.1 per cent of cocaine calculated on the basis of cocaine-base;

e.e) opium- or morphine-containing combined preparations that contain more than 0.2 per cent of morphine calculated on the basis of anhydrous morphine-base;

e.f) difenoxin-containing combined preparations that contain 0.5 mg or more difenoxin, and the amount of atropine sulphate that is equivalent to 5 per cent of a difenoxin dose;

e.g) diphenoxylate-containing combined preparations that contain 2.5 mg or more diphenoxylate (calculated on the basis of diphenoxylate-base), and the amount of atropine sulphate that is equivalent to 1 percent of a diphenoxylate dose;

e.h) *Pulvis ipecacuanhae et opii compositus*:

e.h.a) 10 per cent of opium powder;

e.h.b) 10 per cent of ipecacuanha root, which is well mixed with 80 percent of any other ingredient in the form of powder which does not contain any narcotic drug;

e.i) standard samples of substances included in the List.
