

I was hospitalized and I was presented a huge bill I can not pay. Can you help me by paying it?

If you have been hospitalized abroad, consular officers in the Bulgarian diplomatic missions abroad can not pay for you the cost of your treatment.

We recommend, before any traveling abroad, to take out an adequate insurance to fully cover any medical treatment or services.

In case of illness or if you are hospitalized due to any other reason, the consular officers can help you contact your friends or relatives and assist your insurance company to settle the issues.

If you travel in Europe and have a European Health Insurance Card, you should note that some of the emergency medical services are free, but in any case you should have a health insurance.
