SUB-COMMITTEE ON SOVIET ECONOMIC POLICY

UNITED STATES CURRENT ESTIMATES ON THE WORLD WHEAT OUTLOOK

Comments by the Canadian Delegation on AC/89-WP/173

10/12/65

It is suggested that in the title, "1965/66" be clarified to indicate whether or not this is a crop year. The Canadian crop year would be 1st August, 1965 to 31st July, 1966.

2. The estimated Canadian deliveries in Table 1 should be revised as follows: to USSR 6.0 to China 2.2 (no change); to Eastern Europe 1.3 - 1.4; total 9.5 - 9.6.

3. The detailed estimates of Canadian deliveries on Pages 1 and 2 should read as follows:

- "to USSR 6.0 from Canada; 213,000 metric tons under earlier contracts within three year agreement of April 1963 and 5.8 under contracts signed August 1965."
- "to Eastern Europe minimum of 1.3 - 1.4 from Canada under agreements of 3 years (October 1963) Bulgaria; 5 years (October 1963) Czechoslovakia; 3 years (November 1963) Poland; 3 years (August 1964) Soviet occupied Zone of Germany and 3 years (June 1964) Hungary."

4. Canadian deliveries of the amounts mentioned may extend beyond the end of the 1965-66 crop year in some cases.

5. With regard to Table II, a footnote for Canada should be added reading "Crop year 1st August, 1965 to 31st July, 1966". Figure "1.7" in the heading under "Carryover" should perhaps be deleted since it applies only in the case of the United States. Figures for Canada in Table 2 should be revised to read as follows:

Carryover	Production	Supply 1965/66	Domestic Uses	Export Communist Countries	Projections Non-Communist Markets	Balance
14.0	18.5	32.5	4.1	9.3-9.4	6.9-7.0	12.1
